Baron,2012 The early years of the 21st Century could well be called the decade s of the entrepreneur Entrepreneurship is an often featured topic in magazine and newspaper articles popular television shows and major films Universities have added courses departments and even schools of entrepreneurship to their catalogs and governments at all levels are competing to develop programs to encourage entrepreneurship A key reason behind this growing interest is the widely held belief supported by economic data that entrepreneurship is a powerful engine of economic growth By presenting accurate knowledge about entrepreneurship itself this book serves to convert the rising tide of interest in entrepreneurship into advice and guidance that can actually assist entrepreneurs in achieving their goals This book presents valid information concerning the factors that encourage entrepreneurship s emergence including the conditions that shape its outcomes and how it unfolds as a process This text draws on two key sources of knowledge input from entrepreneurs and the findings of empirical research obtained through systematic research As the sub title suggests however emphasis is placed on the latter whenever possible because the information individual entrepreneurs possess cannot readily serve as the basis for general principles or guidelines since it is unique to each entrepreneur By combining evidence based knowledge with the hard earned wisdom of experienced entrepreneurs this volume offers a balanced and inclusive guide useful to both current and aspiring entrepreneurs Entrepreneurship is indeed a driving force of economic growth But beyond that it is also a key mechanism through which human creativity ingenuity skill and energy are converted into tangible outcomes that can and often do change the world in ways that enhance and enrich human welfare This volume will be of particular interest to students of entrepreneurship in a broad array of fields ranging from business and management to engineering and governance Suitable for undergraduate courses and graduate programs alike this book is frontier blazing in its own right and will help those who read it be so as well **Penmarric** Susan Howatch,2013-06-06 Susan Howatch s dark epic family saga is a must read for fans of Winston Graham s Poldark We all want what we cannot have but when Mark
